

3990 Manual Pressure Control Packs

- Self-contained for ease-of use
- Includes precision adjuster to allow increments as fine as 0.00025 psi (0,02 mbar)
- 1000 psi (70 bar) and 3000 psi (200 bar) models also provide absolute and negative gauge mode
- Includes metering valve for fine control
- Vent valve provides easy means to vent pressure to atmosphere
- Convenient 1/4" NPT female connections

Descriptions

The Series 3990 Manual Pressure Control Pack provides a convenient means of manually adjusting pressure to both the device under test and a calibration standard such as a gas piston gauge or pressure indicator.

Two models are available for covering pneumatic pressures to 1000 and 3000 psi.

Model 3990-801	Vacuum to 1000 psi (70 bar) All ports 1/4 in NPT female
Model 3990-803	Vacuum to 3000 psi (200 bar) All ports 1/4 in NPT female

By DAkkS according to DIN EN ISO / IEC 17025: 2005 accredited laboratory.
