

# ADT 161, 161Ex Intelligent Digital Pressure Modules

Gauge pressure

Differential pressure

- Pressure ranges to 4,200 bar (60,000 psi)
- Precision accuracy to 0.01% RD
- Intrinsically Safe (Ex) models available
- Fully temperature compensated accuracy

#### Overview

With advanced microprocessor technology and state-of-the-art silicon pressure sensors, Additel's 161 and 161Ex series Digital Pressure Modules provide an accurate, reliable, and economic solution for wide range of pressure applications. Our intrinsically safe (Ex) models are up to the task of providing the best possible results, even in hazardous environments. In order to reach the best performance, every silicon pressure sensor in the module has been specially aged, tested and screened before assembly. Designed as external pressure modules for Additel's 760 automatic handheld pressure calibrator, the ADT761 automated pressure calibrator, ADT226 series handheld process calibrator and Additel's flagship 780 pressure controller, the Additel 161 is unmatched in performance and reliability. If intrinsic safety is a critical requirement for your workload, we have you covered when you combine our model ADT226Ex process calibrator with any of our ADT161Ex pressure modules.

#### **Features**

- Precision sensor measurement accuracy to 0.01% RD
- Gauge pressure measurement accuracy of 0.02% FS
- Pressure ranges to 4,200 bar (60,000 psi)
- Intrinsically Safe (Ex) models available
- Advanced temperature compensation
- ISO 17025 accredited calibration and data included

### **Pressure Range**

| Differential Pressure |                               |        |        |                     |          |                   |  |
|-----------------------|-------------------------------|--------|--------|---------------------|----------|-------------------|--|
| P/N                   | Pressure Range <sup>[1]</sup> |        |        | Accuracy            | Burst    | Static            |  |
|                       | (inH2O)                       | (mbar) | Medium | (% FS)              | Pressure | Pressure<br>Range |  |
| DP1                   | ±1                            | ±2.5   | Gas    | 0.05 <sup>[2]</sup> | 100x     | ±10 psi           |  |
| DP2                   | ±2                            | ±5.0   | Gas    | 0.05 <sup>[2]</sup> | 100x     | ±10 psi           |  |
| DP5                   | ±5                            | ±10    | Gas    | 0.05 <sup>[2]</sup> | 50x      | ±10 psi           |  |
| DP10                  | ±10                           | ±25    | Gas    | 0.05 <sup>[2]</sup> | 20x      | ±10 psi           |  |
| DP20                  | ±20                           | ±50    | Gas    | 0.05                | 20x      | ±10 psi           |  |
| DP30                  | ±30                           | ±75    | Gas    | 0.05                | 20x      | ±10 psi           |  |
| DP50                  | ±50                           | ±160   | Gas    | 0.05                | 3x       | ±10 psi           |  |
| DP100                 | ±100                          | ±250   | Gas    | 0.02                | 3x       | ±15 psi           |  |
| DP150                 | ±150                          | ±350   | Gas    | 0.02                | 3x       | 50 psi            |  |
| DP300                 | ±300                          | ±700   | Gas    | 0.02                | 3x       | 50 psi            |  |

<sup>[1]</sup> FS specification applies to the span of the range. Accuracy includes one year stability.

<sup>[2] 0.05%</sup>FS accuracy (incl. 6 months stability). One year accuracy is 0.05%FS calibration accuracy combined with 0.05%FS one year stability.
